“ I remember Judi from my teenage years being involved in horses. She knew horse stuff better than anyone around! She set the standard!
May she rest in peace reunited with Lynn and Dale. My deepest sympathy to her family.

Judy, Dale and Lynn were my neighbors for many many year and Dale and Judy taught me everything about horses and how to show them in the western saddle group of horse shows in the Saddle Club/4H. Dale and Judy had an OLD School house on their property that they made into a Saddle Club/4H building where we would have our meetings. Lynn and I would ride together on their farm or my fathers farm, as we were neighbors. Judy was like a 2nd mother to me and I will always keep the fond memories of her in my heart. My Sincere Condolences to her family members.

We bought a Hereford 50th Anniversary saddle from Judi that belonged to her daughter. I still have it today.

Judi made the best coffee!

*I met Judi, Dale and Lynn when Lynn was 3. Judi and Dale taught me about Quarter Horses and as a city kid, I found that pretty special! She continued the teaching about Yorkies (2 came to my home), birds, flowers, burros, goats, horse showing and shows outside Winona and the Amish culture introducing us to woodworking and baking artisans. She treated my husband with kindness, respect and shared humor that they both understood! She comforted me when he passed away. Judi did things her way and that was a blessing for her and another teaching moment for me. I'm sorry that I can't be at her send off today to hear the stories! Don't forget to 'humor' your pets!
My sincere sympathy to Geri and Tom and the rest of the family and friends.*
